

Two-Stage Heat Pump with Puron® Refrigerant MODEL 226A

The Preferred Choice for

Bryant® Earns Your Trust

Since 1904, Bryant has earned the trust of U.S. homeowners by doing whatever it takes to deliver superior quality and performance. Thanks to the commitment and dedication of our development and manufacturing teams, families have learned to count on Bryant for reliable indoor comfort solutions. Today, with environmental awareness and energy costs on the rise, Bryant offers an excellent fit for concerned homeowners: the Model 226A Two-Stage Heat Pump with Puron® refrigerant.

The Bryant Model 226A provides worryfree comfort that won't deplete the Earth's ozone layer. It delivers savings on your energy bills with up to 16 SEER cooling efficiency and up to 9.0 HSPF heating efficiency. And it does it as quietly as the refrigerator in your kitchen. Designed, built

and backed by the most trusted name in the business, and installed by your local Bryant dealer, the Model 226A Two-Stage Heat Pump with Puron® refrigerant provides comfort you can enjoy season after season.

Enjoy the Comfort of Trusted Reliability

Relaxing in the comfort of your home is easy with the Model 226A because this is one durable and reliable heat pump. Durability is built-in with our DuraGuard™ protection package that looks good for years while protecting the outdoor coil from sports and lawn equipment and even the weather. Inside, corrosion-resistant components and compressor-protection features help ensure this heat pump delivers comfort when you need it.

In addition, Bryant's Model 226A provides the peace of mind that comes with choosing a system developed by a company known for its commitment to customer satisfaction. From initial design through product testing and an assembly process, we go beyond the industry's expectations for quality and reliability to be sure that every unit we make measures up to even tougher standards – yours.

Remarkably Efficient Indoor Comfort

Peace of Mind

Having a great warranty helps you enjoy your comfort with confidence. Bryant builds trusted reliability into every product, then provides additional peace of mind with excellent warranty protection.

To the original owner, the Bryant Model 226A Two-Stage Heat Pump is covered by a 10-year parts limited warranty upon timely registration of your new equipment.* Ask your Bryant dealer about optional extended warranties, which may include labor.

* Warranty period is 5 years if not registered within 90 days.

Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts warranty. See warranty certificate at bryant.com for complete details.

Performance

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.

Perfect Your Comfort with Perfect Humidity®

The Model 226A is your trusted source for year-round comfort. For enhanced control over temperature AND humidity, add a variable-speed gas furnace or electric fan coil and our Thermidistat™ Control. This system will give you full, seven-day-a-week programmability and our comfort-enhancing Perfect Humidity® function. Perfect Humidity technology elevates your comfort by providing up to 30 times the humidity control of standard heat pump systems.

The Thermidistat^{**} Control is much more than just a thermostat. It is your single source of precision temperature, humidity and indoor air quality control.

Step up to HYBRID HEAT®

As energy costs continue to rise unpredictably, Bryant offers a solution you can get comfortable with - HYBRID HEAT®. By combining the Model 226A heat pump with a variable-speed furnace and matching control, a HYBRID HEAT system automatically selects to the most economical heating source for your heating needs. This system gives you the ultimate in flexibility to maintain your comfort as weather conditions and energy prices change.

Environmentally Sound Comfort, Future Savings

With the Model 226A, you join the growing ranks of homeowners who choose environmentally sound Puron® refrigerant. It's an important consideration because Freon®- 22*, the refrigerant most commonly used in heat pumps, is gradually being phased out of existence due to concern over the Earth's ozone layer. In fact, manufacturers such as Bryant can no longer create Freon-22 products as of January, 2010. While these products may continue to be available as inventories last, costs to service heat pumps using Freon-22 may rise as supplies dwindle. By choosing the Model 226A with Puron refrigerant now, you are helping preserve the ozone layer while protecting yourself from potentially expensive service costs down the road.

* The registered owner of Freon is E.I. Dupont de Nemour & Co.

Home Comfort Components

PURON® REFRIGERANT

Bryant's environmentally sound refrigerant keeps you cool without depleting the Earth's ozone layer.

1 ENVIRONMENTALLY SOUND, EXTRA-EFFICIENT

Our two-stage scroll compressor is designed for use with Puron refrigerant and to quiet, smooth-operating comfort and years of environmentally sound, trouble-free performance.

2 RELIABLE PERFORMANCE

Bryant's Microtube™ Technology refrigeration system with copper tube/ aluminum fin coil maximizes transfer of heat outside your home to ensure cooling efficiency. Coil materials and design minimize chances for rust and corrosion for lasting performance.

QUIET OPERATION

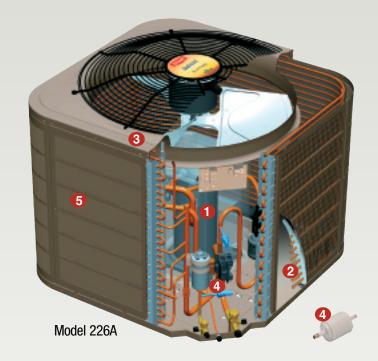

Smooth-running two-stage scroll compressor features naturally quiet operation that is further reduced with our compressor sound hood.

LASTING COMFORT

Pressure switches and the filter drier protect the unit's most important single component: the compressor.

6 BUILT TO LAST

The Bryant DuraGuard™ protection package ensures lasting durability and good looks through years of exposure to weather, sports and lawn equipment and more. Three key elements to this package include: galvanized steel cabinet, baked-on powder paint and louvered coil guard.
