

WEATHERKING Furnaces

W95T Multi-position Gas Furnaces

With the WeatherKing® W95T Gas Furnace, we've thought of everything to bring you efficient and dependable indoor comfort solutions.

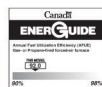

- **Dependability** is of the utmost importance when it comes to your family's comfort. Our W95T Gas Furnace comes standard with the direct spark ignition system (DSI), which is one of the most dependable ignition systems available today. This technology is the same proven design used on ovens and stoves.
- **Protect Your Home** with the industry's first blocked drain sensor which will shut off your furnace when a drain is blocked, preventing water spillage and potential water damage to your home. It also prevents seasonal start-up issues, which means fewer warranty claims. All this and the **best warranties** in the industry translate to fewer repair bills and more cozy nights at home.
- **Quiet and efficient comfort** is what you get with W95T Gas Furnace. The new patented heat exchanger design provides **improved airflow**, which reduces operating sound by 20%**², making it one of the **quietest furnaces on the market**. And because it's **high-efficiency**, your monthly energy bill will give you even more reasons to smile.
- **Easy installation and maintenance** features benefit consumers, too. This means savings on installation costs and faster, more cost-effective repairs during maintenance. The W95T Gas Furnace is also designed with the industry-first 7-segment LED display, a feature that makes service calls quick and easy.
- **Maximum efficiency** is provided by the constant torque ECM motor which maintains efficiency across a range of operating speeds, using less electrical energy than a standard PSC motor. An energy efficient motor also means a lower monthly utility bill.

Limited Warranty Information***:

Heat Exchanger - Twenty (20) Years

Conditional Parts (Registration Required) - Ten (10) Years

**High Efficiency
95% A.F.U.E.*
Input rates from
40 to 115 kBTU**

* Annual Fuel Utilization Efficiency (A.F.U.E.) measures the amount of heat delivered to a home compared to the amount of fuel that is supplied to the unit. Higher A.F.U.E. ratings reflect higher efficiency.

** Testing showed, on average, a 20% reduction in sound when compared to previous WeatherKing® gas furnace models.

*** Registration within 60 days of installation, original homeowner and residential application only. See Warranty Card for full details.
