

The new degree of comfort.™

Air | **Air Handlers
RH2V**

COMFORTABLY

QUIET AND EFFICIENT

Designed with maximum energy efficiency and quiet operation, the **Rheem High-Efficiency RH2V Air Handler** gives you a higher level of comfort while keeping your utility bills low.

Now that feels comfy.

RH2V Series

Advanced Comfort

The Rheem High-Efficiency Air Handler is performance-measured across 13 active monitoring points that can constantly maintain your home's comfort level while delivering maximum energy efficiency.

Reduce Energy Bills

Reducing your monthly energy bills is easier than ever because the heart of the Rheem RH2V Air Handler is the high-efficiency, variable-speed blower motor – recognized by the industry for its leadership in energy savings.

Guaranteed Reliability

Built with pride, our quality construction delivers quiet operation and long-lasting, reliable performance, all backed by a 10-year limited parts warranty.

INTEGRATED HOME COMFORT

Rheem.com

We Thought of Everything... And Then Some.

The Rheem Air Handlers were developed using our 360°+1 design philosophy, which means every detail of the product is meticulously evaluated from every angle. We consider the work that goes into installing and servicing our products, as well as how we can deliver the very best homeowner experience. And then we take it a step further. That's 360°+1. And that's why you can count on your Rheem Air Handler to bring you and your family years of comfort.

Enjoy the Advantages of Cutting-Edge Technology

Rheem High-Efficiency Air Handlers are expertly designed to maximize energy efficiency and minimize energy costs while delivering reliable, quiet operation that makes being home even more comfortable.

Energy Savings The heart of an air handler is the blower motor. That's why Rheem RH2V Air Handlers feature a high-efficiency, variable-speed blower motor. When the unit is matched with a two-stage air conditioner or heat pump, it is able to run at a lower speed the majority of the time. This provides even temperature so there is no need to continuously adjust your thermostat, reducing your energy usage.

Humidity Control A new Rheem Air Handler will improve the comfort of your home by automatically adjusting the humidity level which improves air quality and lowers static electricity levels.

Efficient Heating & Cooling Rheem Air Handlers are designed to deliver maximum performance, well exceeding the standard efficiency requirements. Rheem Air Handlers also come with a **1 factory-installed indoor aluminum cooling coil** to help heat and cool your home. The coil provides humidity control and better unit performance.

The Rewards of Rheem Proven Quality

Quiet Operation With its high-efficiency, variable-speed blower motor, the Rheem High-Efficiency Air Handler is designed to slowly ramp up its speed to the most efficient performance levels allowing for much quieter operation. Our **2 sturdy steel cabinet** with **3 one inch of foil-faced insulation** offers excellent thermal and sound insulation.

Versatile Design The 4-way convertible design of Rheem Air Handlers allows the unit to fit in with the design of your home.

Optional Electric Heat When a heat pump is paired with the unit, Rheem Air Handlers can also provide efficient heating for your home. An optional electric heater kit can be added to keep you cozy all winter long.

Easy Service Rheem Air Handlers have been engineered to provide your technician easy access to all internal components, helping any service time stay short and simple.

Rheem Quality The RH2V Air Handler features a new lanced fin design for maximum performance and increased efficiency. A new high-grade condensate drain pan keeps the unit operating smoothly, especially when the weather heats up. And the corrosion-resistant aluminum endplates keep your unit looking as good as it runs.
