## Rinnai.

|  |   | C85e (2532WC)                       |
|--|---|-------------------------------------|
| Type of Appliance<br>Rinnai model number | Temperature controlled, continuous flow, gas hot water system<br>REU-V2532WC-US                 |                                     |
| Operation                                | With or without remote controls, mounted in kitchen, bathroom, etc.                             |                                     |
| Exhaust system                           | Outdoor forced combustion   |                                     |
| Minimum/Maximum Gas Rate (Input)         | 15,000 - 199,000 BTU/h (Natural Gas or Propane)   |                                     |
| Electrical                               | Appliance:<br>Remote Control:   | AC 120 Volts - 60 Hz<br>DC 12 Volts |
| Electrical Consumption                   | Normal<br>Standby<br>Anti-frost protection  | 63 watts<br>5.5 watts<br>84 watts   |
| Ignition System                          | Direct electronic ignition  |                                     |
| Hot Water Capacity                       | 0.6 to 6.5 GPM (50° F rise)   | 0.6 to 8.5 GPM (35° F rise)         |
| Temperature                              | 98° - 185° F  |                                     |
| Temperature (without remote)             | 140° F (factory default)  |                                     |
| Approved Gas Types                       | Natural or Propane (ensure unit matches gas type)   |                                     |
| Installation                             | Outdoors only   |                                     |
| Energy Factor                            | Natural Gas: 0.82   | Propane: 0.83                       |
| Thermal Efficiency                       | Natural Gas: 84%  | Propane: 85%                        |
| Service Connections                      | Gas supply: 3/4 inch MNPT<br>Cold water inlet: 3/4 inch MNPT<br>Hot water outlet: 3/4 inch MNPT |                                     |
| Water Flow Control                       | Water flow sensor, electronic water control and by-pass control                                 |                                     |
| Minimum/Maximum Water Supply Pressure    | 20 - 150 PSI (50 PSI or above is recommended for maximum flow)                                  |                                     |
