

THE CONCORDE SERIES

Cast Iron Stoves

Lexington Forge

THE CONCORDE SERIES

Founded in fire and forged in history, Lexington Forge offers the tradition of fine craftsmanship and the convenience of contemporary technology in each of its uniquely beautiful stoves. Beyond its utilitarian uses for cooking and heating, fire has always been a gathering point at the hearth of every home. Create your

own gathering space and add the beauty and classic warmth of a Lexington Forge to yours. It will spark your own traditions and new reasons for coming together. After all, it's never too late to forge your own history.

WHERE OLD WORLD
CRAFTSMANSHIP
AND 21ST CENTURY
TECHNOLOGY MEET.

CAST IRON DIRECT VENT STOVES

The elegant castings of the Concorde direct vent stove are timeless in their design and complement any décor or setting. The intricate design and detailing will add character to any room. Designed with the latest direct-vent technology, this stove proves to be a clean burning, efficient heater and is easily installed into almost any room. Traditional styling combined with the warmth and ambiance of a fire make the Lexington Forge® direct vent gas stove a valued addition to your home. Our designers have meticulously scrutinized every detail to ensure that you receive the finest gas stove built today.

WHEN YOU CHOOSE A STATE-OF-THE-ART GAS APPLIANCE BY LEXINGTON FORGE, WE WILL ASSURE YOU UNSURPASSED QUALITY, DESIGN INNOVATION AND COMMITMENT TO CUSTOMER SATISFACTION.

CSDV40D direct vent cast stove with double doors in Graphite

LEXIFIRE BURN SYSTEM™

Exclusive LexiFire Burn System – combines all of the elements of a natural wood fire to produce flames so realistic, you'll forget it's not real wood.

Realistic Logs – starting with hand carved samples that are perfectly proportioned to fit the stove size and viewing area and then color enhanced to match real wood.

Yellow Flames – bright yellow flames appear almost translucent in color.

Log glow – as log surfaces heat up they produce a bright reddish orange glow, similar to wood in the secondary stages of combustion.

Ember Bed – a large area of burning ember replicates the look of wood in the final stages of combustion.

Primary Combustion Zone – primary combustion of fuel load.

LexiFire Burn – gas and oxygen are precisely metered and strategically distributed to provide optimum flame presentation.

CAST STOVE FEATURES

- High quality castings
- Large viewing area
 - 126 square inches (CSDV20)
 - 230 square inches (CSDV30)
 - 300 square inches (CSDV40)
- Available in natural or propane gas models
- Robust lively flames, glowing logs and a large ember bed on a pan syle burner provide both ambiance and warmth to any setting
- Reliable millivolt system operates even during power outages
- Operator friendly deluxe control panel with color illustrated decal
- Battery operated pilot ignition system makes startup a snap
- Variable flame control
 - CSDV20**–12,500 to 18,000 Btu/hr input (natural gas) and 15,000 to 19,000 Btu/hr input (propane gas)
 - CSDV30**–17,000 to 28,500 Btu/hr input (natural gas) and 21,000 to 28,000 Btu/hr input (propane gas)
 - CSDV40**–26,000 to 38,000 Btu/hr input (natural gas) and 30,000 to 36,000 Btu/hr input (propane gas)
- Options include a heat activated variable speed blower (excluding CSDV20), remote controls or wall thermostat
- Thermal efficiency up to 80%

OPTIONAL ACCESSORIES
