

HOT, INSIDE AND OUT.

Having killer looks is a great start. Add a heart of gold, and it's magic. Our patented hybrid heat exchanger keeps the hot water flowing, which makes Eternal so amazing. It produces almost no harmful emissions and is environmentally friendly. The sealed combustion system and designer finish means Eternal is safe yet sleek enough to stand next to your most prized possessions.

Provides endless hot water for up to 6 applications at once.

Endless

Replaces multiple water heaters and supplies endless hot water

Reliable

Made of corrosion resistant stainless steel with 20 year no leak warranty

Efficient

Patented counter flow design maintains at least 86% efficiency to save energy cost and the environment
