## Fuelsaver Series

Modern Coal or Wood Burning "Add-on" Boiler

**New Yorker**<sup>®</sup>  
RESIDENTIAL HEATING BOILERS

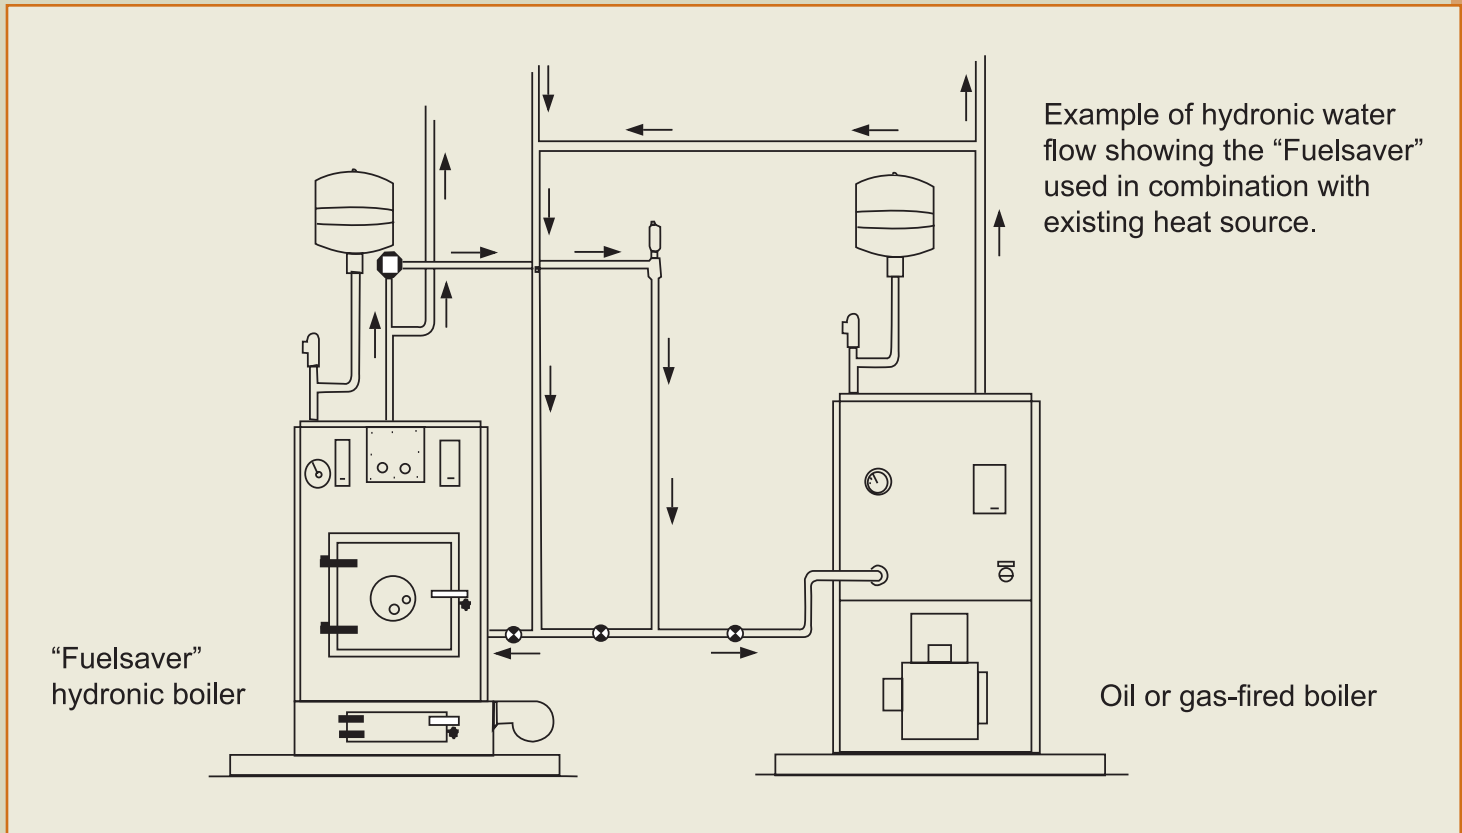

Fuelsaver is an excellent add-on to an existing boiler or addition to a new boiler. It operates on wood or coal and is designed to provide both hydronic heat and domestic hot water. The high mass wet leg design of the heat exchanger and optional integral domestic hot water coil provides efficient operation.

- **Available in 2 Sizes**
- **Heating Capacities from 90 to 130 MBH**

# Ratings & Specifications
