Air Conditioning & Heating

PRECISE COMFORT AND VALUE

When selecting a gas furnace for your home, you are often searching to find the best combination for an ideal level of home comfort. You want to find a gas furnace that offers exceptional, dependable, and stable performance for many, many years. Most importantly, you want the best value possible. Faced with the decision to find a trustworthy and reliable gas furnace that delivers quiet, energy-saving operation and outstanding long-term value, the Goodman® brand GCV96 Gas Furnace may be your best option. Whether it's the coldest day of the year or any day of the year, with the Goodman brand GCV96 Gas Furnace you'll be saying, "Thank goodness for Goodman.®"

ENJOY THE COMFORT AND EFFICIENCY

Goodman's GCV96 High-Efficiency Gas Furnace with a modulating gas valve and a variable-speed circulating blower provides efficient and economical performance. Unlike single-stage gas furnaces that operate 'all on' or 'all off,' a Goodman brand modulating gas furnace typically runs at the lowest possible speed to precisely maintain a constant, steady temperature in your home. A modulating gas furnace optimizes its heating output to maximize indoor comfort and lower energy costs as compared to a non-modulating gas furnace.

When operating at low-speed levels, your Goodman brand gas furnace consumes less energy to keep your home comfortable. In addition, the 96% AFUE rating on this gas furnace means that 96 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems are rated at 60% AFUE. The Department of Energy (DOE) established the AFUE (Annual Fuel Utilization Efficiency) system to calculate the annual operating cost of residential gas furnaces.

The Goodman brand GCV96 Gas Furnace is ComfortNet™ compatible. Homeowner benefits of this system include advanced diagnostics, automatic maintenance alerts, and continuous monitoring of the system's performance.

THE HEART OF COMFORT

The award-winning design of the primary heat exchanger in the Goodman brand GCV96 is unique. It's constructed from tubular aluminized-steel and formed into a dual-diameter configuration. Furthermore, the use of wrinkle-bend technology results in an extremely durable heat exchanger. A heat exchanger often is considered the essential component of any gas furnace. Additionally, this gas furnace has a stainless-steel secondary heat exchanger. This combination offers one of the best levels of reliability, durability, and efficiency you'll find within the Goodman brand.

IMPRESSIVE FEATURES AND BENEFITS:

GOODMAN® BRAND GCVM96 VARIABLE-SPEED MODULATING GAS FURNACE

- ComfortNet™ Communicating Systems Compatible
- Corrosion-Resistant Vent Blower
- Aluminized-Steel Primary Tubular Heat Exchanger
- Electronic Control Board with Self-Diagnostics
- Self-Calibrating Modulating Gas Valve
- Auto-Comfort Mode for Enhanced Dehumidification
- Stainless-Steel Secondary Heat Exchanger
- Run-Tested at Factory Prior to Shipment
- Efficient, Quiet Variable-Speed Circulator Motor
- Insulated Cabinet
- Long-Life, Durable Silicon Nitride Igniter System
- Powder-Paint Finish
