Air Conditioning & Heating

A COMFORTABLE VALUE

When selecting a gas furnace for your home, you are often searching to find the best combination for an ideal level of home comfort. You want to find a gas furnace that offers exceptional, dependable, and stable performance for many, many years. Most importantly, you want the best value possible. Faced with the decision to find a trustworthy and reliable gas furnace that delivers quiet, energy-saving operation and outstanding long-term value, the Goodman® brand GME95 Gas Furnace may be your best option. The gas furnace in your home provides not only heating comfort, but it operates with your central air conditioner to deliver cool comfort, too. So, your final choice is doubly beneficial. Whether it's the coldest day of the year or any day of the year, with the Goodman brand GME95 Gas Furnace you'll be saying, "Thank goodness for Goodman.®"

ENJOY THE COMFORT AND EFFICIENCY

The Goodman brand GME95 High-Efficiency Gas Furnace with two-stage heating and a multi-speed circulating blower provides efficient and economical performance. Unlike single-stage gas furnaces that operate 'all on' or 'all off,' a Goodman brand multi-speed gas furnace typically runs up to 90% of the times in the low-speed capacity on most days. But when the temperature outside is frightfully cold, this furnace quietly ramps up to high-speed capacity to deliver all the warm, comfortable heat your home needs.

When operating at low-speed levels, your Goodman brand gas furnace consumes less energy to keep your home comfortable. Compared to single-speed furnaces, the 96% AFUE rating on this gas furnace means that up to 96 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems are rated at 60% AFUE.

QUIET YOU CAN COUNT ON

The components of your Goodman brand GME95 Furnace including the multi-speed blower and two-stage gas valve have been specially selected to reduce the noise levels common in single-speed furnaces without these features.

Finally, we house these components in a fully insulated, heavy-gauge steel cabinet. The result... quiet comfort.

THE HEART OF COMFORT

The award-winning design of the primary heat exchanger in the Goodman brand GME95 is unique. It's constructed from tubular aluminized-steel and formed into a dual diameter configuration. Furthermore, the use of wrinkle-bend technology results in an extremely durable heat exchanger. A heat exchanger often is considered the essential component of any gas furnace. Additionally, this gas furnace has a stainless-steel secondary heat exchanger. This combination offers one of the best levels of reliability, durability, and efficiency you'll find within the Goodman brand.

IMPRESSIVE FEATURES AND BENEFITS:

GOODMAN® BRAND GME95

MULTI-SPEED GAS FURNACE

- Aluminized-steel tubular primary heat exchanger
- Stainless-steel secondary heat exchanger
- Electronic ignition control
- Two-stage gas valve
- Durable Silicon Nitride igniter
- Electronic control board with self-diagnostics
- Auto-comfort mode for enhanced dehumidification
- Efficient, quiet multi-speed circulator motor
- Corrosion-resistant vent blower
- Fully insulated, heavy-gauge steel cabinet with durable baked-enamel finish
