AMERICAN HEARTH

*American Hearth – The Choice for Efficiency*

Luxury Gallery DVX42DP Direct-Vent Fireplace with Braided Arch Decorative Front and Marquis Arch Doors in Matte Black with Banded Brick Liner, White Profile Mantelshelf, and Custom Tile Surround.

# Gallery Series

## *American Hearth – Made in America*

We design every American Hearth fireplace using the best available technology and build each one to the highest-quality standards in our manufacturing facility in Belleville, Illinois.

We make most of our components – from cutting steel to forming to welding to painting – and then hand assemble each fireplace to ensure the best fit and finish. For purchased parts, we give preference to North American suppliers – including our hand-painted log sets, our tempered and ceramic glass, the paint and powder coating, and even the packaging we use to protect our products until they reach your home.

The result is a fireplace that's built to last by experienced craftsmen and craftswomen – a fireplace that's as deeply rooted in history as fire itself – American Hearth.

## *American Hearth*

Our Gallery Series Fireplaces create an attractive, clean-face look but deliver the convenience and efficiency of a modern, direct-vent heat source. These exceptional fireplace systems are rated at up to 82-percent efficient and up to 37,500 Btu input.

## *Choose a Fireplace*

Gallery Series Fireplaces are available in Premium Models – featuring tempered glass, automatic blower, and a four-piece log set mounted on a Slope Glaze Burner – and in Luxury Models – featuring ceramic glass (for better heat transfer), dimmer-controlled interior lighting, automatic blower, and a 13-piece log set atop the larger Slope Glaze Excess Burner.

Within the Premium and Luxury lines, you choose the technology: remote-ready Millivolt, Intermittent Pilot (which eliminates the standing pilot for even greater efficiency, but requires 110 V to operate and includes battery backup), or Multi-Function Remote Control (which includes a thermostat remote that automatically adjusts flame height and blower speed to maintain your ideal temperature setting – also requires 110 V and includes battery backup).

We offer both Premium and Luxury fireplaces in 36-inch and 42-inch and in LP and Natural.

Fireplace	Btu (LP/Nat)	Available Liners	Venting
Premium 36	27,000/25,000	Aged Brick, Herringbone, Stacked Fieldstone	4 x 6 5/8 (LP: top-vent only)
Premium 42	28,000/28,000	Aged Brick, Herringbone, Stacked Fieldstone	5 x 8
Luxury 36	30,000/33,000	Banded Brick, Stacked Fieldstone	4 x 6 5/8 (top-vent only)
Luxury 42	35,000/37,500	Banded Brick, Stacked Fieldstone	5 x 8 (top-vent only)

# Decorative Fronts & Doors

## *Choose a Clean Face Decorative Front*

Complete your Gallery Series Fireplace with a Clean Face Decorative Front, in one of three distinct designs – Tiffany Arch, Braided Arch, and the rectangular Arts and Crafts.

Constructed from heavy-gauge steel and finished with durable heat-resistant coatings these attractive Decorative Fronts will provide a lifetime of enjoyment.

The optional Marquis Arch Doors and Arts & Crafts Rectangle Doors add depth and drama. Made from heavy-gauge steel, these operable doors are fitted with screens.

## *Clean Face Options – include appliqués*

*Tiffany Arch*

*Braided Arch*

*Arts & Crafts*

## *Decorative Doors – include handles and hinges*

*Marquis Arch Doors*  
(for use with Braided and Tiffany style faces)

*Arts & Crafts Rectangle Doors*  
(available for Arts & Crafts model only)

## *Finish Options*

*Available for all clean facing accessories and doors*

*Matte Black*

*Hammered Pewter*

*Copper Metallic*

*Gallery Series Clean Face Fronts come with appliqués. Remove to apply optional doors.*

# Fireplace Liners

## *Choose a Fireplace Liner*

No fireplace is complete without a liner. Available for Premium and Luxury fireplaces, our ultra-realistic Stacked Fieldstone design features irregular-shaped stones that recreate the look and feel of a rustic cabin fireplace.

Our Herringbone liners (for Premium models only) feature burnt umber bricks in a herringbone pattern. The look is both contemporary and classic.

Our Aged Brick features brown bricks in a running bond course with charcoal mortar and smoke accents.

Our Banded Brick liners (for Luxury models only) feature dark “creamed coffee” bricks in a running bond course, plus an accent band of diagonal bricks.

All of our brick liners are made from ceramic fiber and hand painted for rich natural coloring. Color may vary. A special black porcelain liner reflects the flames to add depth.

**Banded Brick**

**Stacked Fieldstone**

**Black Reflective  
Luxury**

*Liner availability varies by model.*

DVP36DP Direct-Vent Fireplace with Arts and Crafts Decorative Front in Copper Metallic, Stacked Limestone Brick Liner, Profile Mantelshelf in custom Cherry finish, and custom tile surround.

# Controls

## *Choose a Control System*

### ***Gallery Millivolt Systems***

Millivolt systems include a standing pilot and piezo ignition. Once the pilot is ignited, the fireplace can be operated with a wall switch, wall thermostat, or remote system (FRBC, FREC, FRBTC).

### ***Gallery Intermittent Pilot (IP) Systems***

Intermittent Pilot Systems, available in Premium and Luxury models, eliminate the continuous standing pilot light. These systems require household current and use a 24-volt transformer to generate a spark, which ignites the pilot only when needed.

### ***Gallery Multi-Function Systems – Variable Flame & Blower Speed***

Gallery Series Premium and Luxury Multi-Function Systems include a thermostat remote and special integrated remote that controls ignition and varies the flame height and blower speed to maintain your pre-set room temperature. On Luxury models only, the remote control also operates the fireplace lighting dimmer.

While the technology is sophisticated, the remote control is easy to use – with a large digital readout and well-marked buttons. Unlike a TV remote, the Multi-Function remote does not need to point at the fireplace to work, so it can be placed anywhere in the room. Best of all, Multi-Function models include a battery back-up to continue to provide heat when electric power fails.

Multi-Function Remote Control

FRBTP Programmable Remote Control

IP Thermostat Remote Control

FRBC or FREC Remote Control

FWS Wall Switch

FRBTC Thermostat Remote Control

TMV Wall Thermostat

TRW Wireless Wall Thermostat
