Why Rheem® is the best choice
you can make in a furnace...

Chances are, the last thing you think about is your furnace. You simply expect to be comfortable. That's why Rheem is the best choice you can make - we offer some of the finest heating solutions in the business. Top-quality, innovative products with the latest technology, lasting performance, great warranties and excellent service and support.

All of this is why we confidently say, "Relax, It's Rheem."

A Furnace that "GROWS" to meet your comfort needs

The Rheem Classic Plus® Super Quiet 80™ Gas Furnace has two stages of heating to save energy and keep your home at its comfortable best. Most furnaces are either "off" or "on" at 100% capacity, no matter what your heating comfort needs may be. The Rheem Classic® Plus Super Quiet 80™, however, operates at 70% and 100% capacity.

Most of the time, this furnace operates in its energy saving "low-heat" stage to deliver a gentle and steady flow of heating comfort. On the coldest days, when you need more heat, the furnace automatically switches to "high-heat" stage to deliver the maximum heating comfort.

The temperature of your home stays at the comfort level you select – wherever you set the thermostat.

Take a look inside...

Want to learn more about how your home's heating and cooling system operates? Take the interactive Rheem Virtual Home Comfort Tour online at Rheem.com/VirtualTour.

A look inside.

*Models available for
Upflow/Horizontal
(RGPQ) and Downflow
(RGLQ) applications.
(Upflow model shown)*

Features & Benefits

- 1 To help improve the sound quality of the Rheem *Classic® Plus Super Quiet 80™*, we re-engineered the door and top-plate to provide a sound barrier between the furnace's operation and your home.
- 2 The integrated, two-stage control board directs activities of the gas valve and blower to efficiently keep your home at its comfortable best.
- 3 The two-stage gas valve adjusts the flow of gas to the burner, providing "low heat" and "high heat" as needed for maximum fuel efficiency.
- 4 Direct spark ignition is an extremely efficient way to light the burner while eliminating the need for a standing pilot. And for added safety during operation, the remote flame sensor constantly monitors the burner flame to ensure it is burning as it should.
- 5 Because the *Super Quiet 80™* two-stage usually runs at the lower speed, you will enjoy energy saving and operation that is quieter. Working in conjunction with the two-stage burner and the heat exchanger, this induced draft blower quietly pulls hot combustion gases through the heat exchanger and vents them safely outdoors.
- 6 A permanent, washable filter makes it easy to keep a clean filter in place. No more filters to buy or store. A clean filter helps your furnace run more efficiently and can improve the indoor air quality of your home.

How to Improve Indoor Air Quality

While having an air-tight home improves energy efficiency, the air inside easily becomes stale and polluted. But your Rheem contractor can help you vastly improve your indoor air quality. Ask him about the IAQ options that are right for your home.

- 1 Rheem media and electronic air cleaners remove up to 95% of airborne particles such as dust, pollen and tobacco smoke.
- 2 UV germicidal lights help remove bacteria and viruses from the air.
- 3 Humidifiers improve comfort and reduce energy costs.
- 4 Heat Recovery Ventilators (HRVs) and Energy Recovery Ventilators (ERVs) replace a home's stale air with fresh air – and still recover up to 80% of the indoor temperature.

relax

It's Rheem.®

Relax. We've got you covered.

Rheem supports its equipment with strong warranties and dependable, professional service.

That's why Rheem backs the *Classic® Plus Super Quiet 80™* Two Stage Gas Furnaces with a generous Limited twenty year Warranty on the Heat Exchanger. All other parts have a Conditional Parts Warranty of ten years (Registration Required).

Highly relaxing financing.

Ask your Rheem contractor about *KwikComfort®*

Financing, the easy and

convenient way to finance everything associated with your Rheem equipment – your original equipment, all subsequent service, Protection Plus® extended service protection, and even the comfort options you might choose to add later.

Protect your investment.

While your Rheem equipment is incredibly dependable and covered by an outstanding warranty, you can extend your warranty coverage with Protection Plus® extended service protection. Then you can relax and enjoy the comfort of your Rheem gas furnace – without worrying about the cost of parts or labor for unexpected repairs. And when Protection Plus is purchased in conjunction with your contractor's maintenance program, you can enjoy the peace of mind that your equipment will be both maintained and repaired – as needed and without additional expense.

Ask your contractor about the variety of Protection Plus plans now available. For more information, call 1-877-276-4294 or visit www.protectionplusonline.com.

Deal with the best.

We're pleased you've taken the time to consider a top-quality Rheem product. And rest assured, when you deal with your Rheem Dealer, you'll enjoy a top-quality, professional installation – with the best service we can provide. *Now that's relaxing.*
