

“When you look at the benefits provided, you’ll see that you can depend on Rheem Condensing Units to deliver the quality and value you expect.”

Rheem Dry Series

13 SEER R22 Dry Condensing Unit

Chances are, the last thing you think about is your air conditioner. You just expect to be comfortable. That’s why Rheem is the best choice you can make. Rheem simply offers the finest air conditioning solutions in the business. Top-quality, innovative products with the latest technology, dependable performance, great warranties and excellent service and support. All of this is why we confidently say, “Relax, It’s Rheem.”

Introducing the Rheem R22 Dry Units

The Rheem 13AJA-757 Series is shipped with a **nitrogen holding charge** that must be vented prior to evacuation and charging. This product is only intended for condensing change-out in existing R-22 systems. New R-22 system installations are prohibited by EPA. This product must be charged with R-22 refrigerant meeting AHRI 700 purity standard.

If this particular series meets your job specifications, these nitrogen-charged units are a cost-effective option for existing R22 applications. For your convenience, these models are available in a full family of sizes, from 1.5 ton through 5 ton, to accommodate just about any job.
