Built Tough for Lifetime Comfort™

Cozy, Comfortable Gas Heating

The Thermo Pride Story

Located right here in the United States, Thermo Products, makers of Thermo Pride heating and cooling equipment, is known for superior workmanship and product innovation. Thermo Products is committed to producing handcrafted products that provide your family with reliability, comfort, durability, quiet operation and high efficiency. You will have the peace-of-mind that comes from knowing your gas Thermo Pride Mobile Home and Cottage furnace is anything but a mass-produced, low-cost compromise between quality and price.

Reliability

Whether you're upgrading to save energy or your current furnace fails, you'll want to replace it with one that is both dependable and economical. The Thermo Pride GMD and CMA Mobile Home furnaces are designed and built specifically as replacement furnaces, so you can easily upgrade the heating or cooling system in your home. These Thermo Pride furnaces are designed to fit right into the space of your old furnace without costly modifications to your home's system.

Peace of Mind

Thermo Pride gas furnaces include a 10-year Peace of Mind Plus Limited Warranty. If the heat exchanger fails within 10 years of the date of installation, we will provide a replacement furnace*. After the tenth year, the heat exchanger continues to be covered by our transferable Lifetime Limited Warranty. We also offer a full 10-year parts warranty at no additional cost. Together, these make up Thermo Pride's unique "Peace of Mind" warranty...our assurance to you that, when you buy Thermo Pride, you buy the best.

*Installation requirements must be met. See your contractor for more information.

Value and Efficiency

The Thermo Pride CMA mobile home gas furnace is the perfect choice for your home because of its efficiency and value. At 95% AFUE it is not only ENERGY STAR® certified, but it also qualifies for the 30% Federal Tax Credit**!

Our Promise

Thermo Products is committed to providing you with the best product for your home and we remain dedicated to hometown values.

We're proud that Thermo Pride Mobile Home and Cottage furnaces are manufactured in the United States out of American steel.

Venting Options

The CMA can be vented through the existing roof jack, using our concentric vent kit, or through the roof or wall with our dual pipe flashing kit.

Mobile & Manufactured Home & Cottage Furnace Features and Benefits

18-Gauge Aluminum Coated Heat Exchanger
Provides Long Life
Stainless Steel Primary & Secondary Heat Exchanger
(on CMA)

Silicon Nitride Igniter
for Quiet and Consistent Light-off

Concentric Vent Kit
Is Available for CMA Furnace, Allowing Venting through the Existing Roof Jack

22-Gauge Powder Coated Cabinet
for Durability

4 Speed Direct Drive Blower
for Quiet, Efficient Operation

Lifetime Heat Exchanger and 10 Year Parts Warranties

Designed to Fit Miller/Nordyne Base MA-100
an Ideal Replacement for Your Existing Unit

(GMD shown)

Suitable for Cottage Applications

Some homes are not suited for a full-duct furnace system. An addition to a home may also be more effectively heated using the GMD or CMA furnace on a cottage base, which can have up to four registers installed for gentle, floor-level heat delivery.

Additional rooms may be heated by connecting ductwork to the base, and then through the wall to adjacent rooms. No ductwork is provided with the base.

One-room application with three warm-air distribution grilles.

Three-room application with ductwork into two rooms, and two grilles.

Accessories

Thermo Products offers a complete line of heating/cooling equipment. The addition of accessories to your system can provide greater comfort and a healthier indoor environment.

4" Straight Stainless Steel Vent Pipe

Connects the GMD furnace to the roof jack assembly.

Cottage Base

Used whenever the furnace is installed in a home, garage or addition.

Combustible Floor Base

Required whenever a furnace is installed on combustible material.

It is shipped with a warm air duct connector and combustion air chute. The base comes with knock-outs for all combustion applications.

Air Conditioning Coil Cabinets

The GMD and CMA furnaces are air conditioner-ready. The coil cabinet replaces the floor base for up to 3 tons of air conditioning.

Roof Jack Assembly

Needed as a chimney for proper venting in mobile homes. Available in one, two or three foot lengths.

Specifications
