

The solution for water shortages

Product Sheet RGW-500

Prices effective March 3, 2009. All prices are quoted in Canadian Dollars (CAD\$), and do not include shipping, duty, or tax, if applicable.

BRAC System RGW-500

The RGW-500 is our newest and largest residential GRS. This larger model is equipped with a 1hp BRAC pump, and features a chlorinator for more precise free chlorine levels, and the new style pleated filter cartridges with two filter housings, for better flow rates and ease of cleaning. This model is the perfect solution for larger sized custom homes with families of up to 10 people. Not only will you be saving money on your water bill, but you will also be reducing your household water consumption by up to a third, thus helping to conserve our most precious natural resource.
