NEW Bosch Air Handling Unit
for the Retrofit Market

BOSCH
Invented for life

Additional Space Savings

Bosch offers a complete range of unitary air handlers for both DX and Hydronic applications, including cased and uncased DX coils.

Some of the features include:

- ▶ Reduced footprint for additional space savings and for retrofitting existing systems
- ▶ Energy Star tier 3 compliant (when paired to our condensing sections)
- ▶ ECM 2.3 Constant CFM Motor
- ▶ 4-way multiposition (accessory kit required for downflow applications)
- ▶ 1" cabinet insulation
- ▶ Hydronic connections on top
- ▶ Electrical connections on top or sides
- ▶ Plenum collar on supply outlet

Bosch New Air Handling Units will be available to order in November. For pricing information please visit **www.BoschWayToGrow.com**
