### Tempstar® Air Conditioners And Heat Pumps

Tempstar® professionals take pride in bringing you the latest technology in home comfort, with the goal of surpassing your expectations in energy efficiency and dependability. At a high SEER<sup>1</sup> and HSPF<sup>2</sup>—the industry terms to rate efficiency—these air conditioners and heat pumps will make a big difference in lowering energy bills, especially since your older system may operate at half of the 13/14 SEER efficiency! So Tempstar Heating and Cooling Products lets you enjoy peace of mind with your peace and quiet.

<sup>1</sup>SEER stands for Seasonal Energy Efficiency Ratio and HSPF stands for Heating Seasonal Performance Factor.

### Excellent Warranties Take The Worry Out

Every Tempstar unit is backed by exceptional warranties. You get a 5 year parts and compressor limited warranty.\* And don't forget to ask your dealer about HELP® extended service agreements for additional worry-free protection for parts and labor coverage.

\*See published warranty for complete details. To learn more about these limited warranties, go to Tempstar.com.

### All Together Now

Pairing your Tempstar air conditioner with a Tempstar air handler or furnace and matching indoor coil provides you with total year-round comfort and maximizes energy savings. And when you have a new unit or system installed, it's worthwhile considering Indoor Air Quality products that can cut down pollutants and enhance your comfort. Ask your dealer about air filters, humidifiers, and set-back thermostats.

# 13/14 Seer R22 Air Conditioners And Heat Pumps

- ① Durable galvanized steel construction with baked-on finish weathers seasonal extremes.
- ② Post-painted fin stock and coated wire grille guard against corrosion. The grille spacing protects the coil but allows for easy cleaning.
- ③ Copeland Scroll® compressor operates with proven efficiency and reliability.
- ④ Control panel allows for easier, quicker service access.
- ⑤ Compressor is housed in an extra-thick shell for added protection and durability.
- ⑥ Top-discharge design improves airflow and minimizes noise.
- ⑦ Durable copper tubing, aluminum fin coil, and fins that are post-painted for protection help maintain efficiency.
- ⑧ Integrated solid state controls make the change from heating to cooling go smoothly. (Heat pump only)
