

High-Efficiency Gas Furnaces Every Moment Deserves Coleman® Comfort

Comforteer[™] 8.S & 9.S Series 80% & 95.5% AFUE Efficiency

Comfort for all the times of your life

Get a great feeling

Your special moments deserve to be lived in full Coleman® Comfort. From breakfast time to family time to bed time, a new Coleman® system makes every day feel great!

A name that stands for reliability

The Coleman® nameplate on your product is your best assurance of dependable performance. Our tough manufacturing quality processes make sure that our famous "rugged reliability" comes through for you season after season. And, trust our expert homecomfort contractors for installation and support that leave you with a good feeling.

Comfort with a conscience

These days, energy costs and environmental issues concern everyone. All Comforteer™ ENERGY STAR models can reduce energy costs at least 25% compared to most furnaces that are 20 years old. Models with 90% Annual Fuel Utilization Efficiency

(AFUE) or higher carry the ENERGY STAR® logo, awarded by the Department of Energy and the Environmental Protection Agency for saving even more energy.

Easy service adds up to long-term savings

The Comforteer series makes service and maintenance easy for dealers, too. So, you not only get economy and efficiency, you'll get dependable and reliable performance for years to come.

Coleman[®] Comforteer[™] Series

Savings you can see

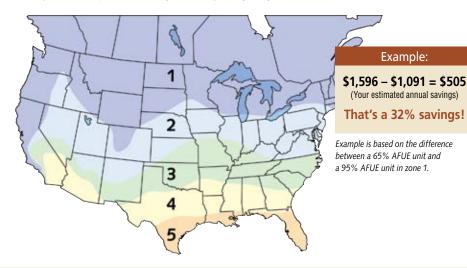

Advanced Comforteer gas furnaces are far more efficient compared to many older units. Factor in higher reliability and reduced service costs, and a Comforteer purchase pays for itself fast.

To use the map and chart:

First, determine the AFUE¹ of your current system. Then using the map, find your zone. Cross-reference your zone and AFUE in the table to determine your approximate operating cost. Take the difference between your current cost and that of a new, more efficient system to learn your estimated annual savings.

Heating Efficiencies			mate Annual perating Cos		
AFUE ¹	Zone 1	Zone 2	Zone 3	Zone 4	Zone 5
65%	\$ 1,596	\$ 1,418	\$ 1,082	\$957	\$534
80%	\$ 1,297	\$ 1,152	\$875	\$777	\$474
92%	\$ 1,127	\$ 1,002	\$764	\$676	\$412
95%	\$ 1,091	\$969	\$740	\$654	\$ 399

¹AFUE: The federal government has established Annual Fuel Utilization Efficiency (AFUE) ratings to allow you to compare the efficiency of furnaces. The higher the AFUE percentage is (e.g. 95%), the more efficient the furnace.

Rugged, reliable product design

Solid front door panel construction and folded metal edges improve durability

Electronic hot surface ignition saves fuel costs with increased dependability and reliability

95.5% AFUE model shown

Compact 33" cabinet easily fits in tight spaces

Induced combustion system with Inshot main burners ensures quiet, efficient operation

> New heat exchanger simplifies gas flow path and reduces parts for years of trouble-free operation

Warrantied for years of comfort

Every Coleman® system is backed with the best limited warranties available:

* Must be installed after May 1, 2009, and registered online within 90 days of installation-otherwise the parts warranty reverts to a 5-year limited parts warranty.

How comfortable is your wallet?

By matching your Coleman[®] system with other Coleman® equipment, you will maximize energy efficiency. Ask your Coleman® dealer about central air conditioning systems, heat pumps, fans, filters, IAQ equipment and advanced controls to complete your system. Talking to your dealer will keep you informed, save you money and time, and protect your family's health—all part of Coleman® Comfort.

Financing plans that feel right

Ask your Coleman[®] HVAC dealer about easy financing options. Applying is easy, and upon

approval, you'll enjoy low monthly payments, special financing offers, and no annual fee!
